

Kaleidoscope

EARLY IDENTIFICATION, ACCESS & INCLUSION

PROFESSIONAL DEVELOPMENT DAY

MONDAY JULY 20TH 9AM - 3PM

The Kaleidoscope Team, in partnership with The Child and Parent Centre – Collie Valley, is pleased to present a free professional development day open to all early childhood educators and practitioners in the Collie Community.

SENSORY-SMART EARLY LEARNING ENVIRONMENTS FOR AUTISTIC/NEURODIVERGENT LEARNERS

All children have their own sensory processing styles, including strengths and challenges. Understanding the 8 sensory systems and how they may present in behaviours of children you are supporting, is important to help create the right learning environment to support each child to thrive.

HOW TO POSITIVELY SUPPORT BEHAVIOUR FOR AUTISTIC CHILDREN IN THE EARLY LEARNING YEARS

It is critical that all early learning environments have a positive approach to supporting behaviour, and that the framework for support is one of prevention rather than reaction.

PRESENTERS

TASHA ALACH

Tasha Alach is Clinic Lead at Greenhouse Paediatrics, with 25+ years' experience in disability and allied health.

An Occupational Therapist, she specialises in autism, ADHD, sensory processing, and complex behaviour, and is committed to early intervention and inclusive, neuro-affirming practice.

ANGELA DUDLEY

Angela Dudley is a Senior Occupational Therapist with 20+ years' experience across early childhood, disability, and community settings.

She specialises in early development, neurodivergence, regulation, and parent coaching, and is known for her warm, practical approach.

Morning & Afternoon Tea provided.
